

SpringBoard West Innovations

In all technology based industries, getting to market fast is essential. New innovations are constantly displacing older concepts and innovators require the support of an experienced team.

SpringBoard West Innovations works alongside Saskatchewan entrepreneurs to accelerate the transformation of their ideas into marketable products and services. To be qualified, SpringBoard's clients have a technology at the core of their innovation and are actively involved in driving their business plan forward. Clients benefit from the expertise of SpringBoard's staff gained through active involvement in building technology companies in varied roles from senior executives to early stage financing.

SpringBoard guides clients through:

- Evaluation of the market potential of new concept
- Creation of a solid intellectual property strategy
- Building a feasible, sustainable, and investable business case
- Input on their sales process, and
- Varied and ongoing support through the initial growth of the company

SpringBoard accelerates the transformation of our client's ideas into commercial reality.
